

TABLE OF CONTENTS

INTRODUCTION	1
THE OCEAN ENVIRONMENT	1
Factors Affecting the Corrosivity of Seawater	4
Forms of Corrosion	6
CORROSION OF METALS IN THE MARINE ENVIRONMENT	9
Carbon Steel	9
Low-Alloy Steels	17
Stainless Steels	23
Nickel and Nickel-Base Alloys	32
Cobalt	40
Copper and Copper-Base Alloys	40
Titanium and Titanium-Base Alloys	50
Aluminum and Aluminum-Base Alloys	57
Beryllium	70
Magnesium	71
Special-Purpose Metals	72
Refractory Metals	72
Noble Metals	73
Lead, Zinc, Cadmium, and Tin	74
Cathodic Protection	76
Update 1977	81
The Ocean Environment	81
Factors Affecting the Corrosivity of Seawater	81
Forms of Corrosion	81
Corrosion of Carbon and Low Alloy Steels	81
Splash, Tide, and Submerged	81
Stress Corrosion Cracking	82
Corrosion of Stainless Steels	82
Splash, Tide, and Submerged	82
Crevice Corrosion	83
Stress Corrosion Cracking	83
Corrosion of Nickel-Base Alloys	84
Corrosion of Copper and Copper-Base Alloys	84
Corrosion of Titanium and Titanium-Base Alloys	85
Corrosion of Aluminum Alloys	85
Atmosphere, Splash, Tide, and Submerged	85
Galvanic Attack and Velocity Effects	86
Stress Corrosion	87
Corrosion of Fasteners	88
Corrosion of Composites and Miscellaneous Materials	88
Corrosion of Coated Structural Metals	88
Coatings for Steel	88
Coatings for Aluminum Alloys	89
Desalination Experiences	90
Galvanic Attack	90
Carbon and Low Alloy Steels	90
Stainless Steel	90

TABLE OF CONTENTS (Continued)

Copper-Base Alloys	91
Titanium and Titanium-Base Alloys	91
Aluminum-Base Alloys	91
Cathodic Protection	92
References	94
Appendix: Designations and Compositions of Selected Copper and Aluminum Alloys	A-1
